CAREER OBJECTIVE

Detail-oriented and motivated Computer Science graduate with foundational knowledge in Artificial Intelligence, web development, cloud computing, and database management. Skilled in developing responsive web applications and exploring AI/ML technologies to solve real-world problems. Seeking an AI Engineer role where I can apply my technical, analytical, and problem-solving skills to build intelligent and scalable solutions. Eager to contribute to innovative projects while continuously enhancing my expertise in AI, machine learning, and full-stack development.

EDUCATION

Talla Padmavathi College of Engineering, JNTUH **2021-2025**

Bachelor of Technology in Computer Science and Engineering (AI & ML)

Alphores Junior College (XII) **2019-2021**

Mathematics, Physics, Chemistry

SKILLS

PROGRAMMING LANGUAGES: JavaScript, Java, Python, SQL, C

WEB TECHNOLOGIES: HTML5, CSS3

DATABASES: MYSQL

DEVELOPER TOOLS: VS code, ServiceNow, Git, GitHub, Eclipse, IntelliJ IDEA

PROJECTS

Haptic Communication System **DEC 2024**

Role: Developer

Description: Developed an IoT-based wearable device that enables tactile (vibration) and visual (led) feedback for emotional communication. The device pair connects via Wi-Fi using the ESP8266 module and communicates through Adafruit MQTT for real-time feedback exchange.

Portfolio Website **JAN 2026**

Built a personal portfolio website using HTML, CSS, and JavaScript with responsive design. Implemented dynamic navigation, animations, and social media integration. Showcased projects, skills, and contact information in a clean UI. Optimized layout for desktop and mobile responsiveness.

Certifications and Achievements

ServiceNow micro-certification **APR 2024**

Acquired practical knowledge of ServiceNow ITSM modules, including Incident, Problem, and Change Management. Customized workflows, forms, tables, and business rules while implementing basic automation solutions. Gained experience in Service Catalog management, ticket handling, user administration, and platform customization.

VOIS(AI-LLMs) Data Analysis **OCT 2023**

Trained in Python, Data Analysis, under the VOIS Program

NIT Warangal **May 2023**

Web Development & ML Intern (System Integration) Warangal, India

Developed Django-based web applications integrating real-time ML models. Validated APIs and backend logic, improving forecast accuracy by 15% via model fine-tuning. Worked in an agile research environment combining ML insights with application logic
